3 Read the following text and answer the questions: (5Ms)

Life in the future will be different from present-day life. The people of the future will probably build cities in space. These cities will be large and thousands of people will live and work there. It will be a fantastic way of life, but there will be many problems and dangers. One of the biggest problems will be oxygen. People need oxygen to breathe, but there is no air in space. That is why future space cities will need their own oxygen supply. To solve this problem, oxygen could be sent to space cities from Earth. But this would be difficult and very expensive. There is another solution. Trees and plants provide us with the oxygen we breathe on Earth. They are cheap to grow and easy to transport from one place to another. So, people could use them to get oxygen in space.

7 Read the following text and answer the questions:

Hi! I'm Amir. I recently read an article about pollution and its impact on the environment, and it got me thinking about how important it is for us to take action. Pollution is extremely harmful to our planet. It makes the air smell bad and makes it hard to breathe. The water gets polluted too, and it's bad for fish and other animals. Pollution represents a significant threat to our planet, harming habitats, wildlife, and even our own health. But we can make a difference! Simple steps like reducing waste, recycling, and using eco-friendly products can help reduce pollution. We should plant more trees to help stop pollution and keep the Earth clean. Let's spread awareness and encourage others to join us in protecting our environment. Together, we can create a cleaner and healthier world!

Hi Adel,
How are you doing? And how is your family? I hope you're doing well! I just read a book about the Ancient Egyptians. They were very smart! They invented things like paper, the calendar, and writing with pictures called hieroglyphics. They also built amazing things like the pyramids. It was cool to learn how their ideas helped the world!
Email me soon.
Bye
Ahmed

Subject; Article about Pollution

Hi Nada,

How are you doing? And how is your family? I hope you're doing well! I read an article about pollution, and it made me worried. Pollution hurts the environment, like the air, water, and animals. It can cause big problems like bad weather and sickness. To help stop pollution, we can use less plastic, throw trash in bins, and plant trees. If we all do our part, we can make the world cleaner!

Email me soon.

3 Read the following text and answer the questions.

There are lots of videos of **giant** pandas posted on social media! Some years ago, giant pandas were put in danger. Much of their habitat was destroyed to build new homes. Their habitat wasn't protected. Pandas only eat bamboo, which was cut down for the houses.

Many people were very worried, so the pandas were put into special areas, where they were protected. They were given as much bamboo as they could eat. In the 1980s, there were only around 1,200 giant pandas. Now there are almost 2,000! This number shows us something important. When we try very hard, we can help to protect animals.

3 Read the following text and answer the questions.

We think our modern world is full of exciting new inventions. However, the Ancient Egyptians were as good as modern people at inventing new things. We still use many Ancient Egyptians' inventions today. They've existed for thousands of years. That's the sign of a good invention! In Ancient Egypt, it was important to write down decisions, record events, and tell stories. For this, people needed paper and ink. Papyrus was a type of thick paper made from reeds. It wasn't as **smooth** as the paper we use today, but it changed how people communicated. The Ancient Egyptians also created an early type of ink. They burned wood or oil, and mixed it with water. Then they used the ink to write on the papyrus.

3 Read the following text and answer the questions.

My class likes to raise money for local charities. Our teacher, Mrs Mariam, helps us organize a special event called Charity Day every few months. We put tables and chairs in the school hall. Then we decorate the hall with flowers from the school garden. On Charity Day, our parents and people from the community come to buy things. Some children make cakes and lemonade to sell. My friend Fares and his sister Laila make delicious snacks, too. We also bring books and crafts to sell. I like making models, so I make models and I sell them on the day. We give the money we raise to local charities. It's a special day for the community and it's always a lot of fun!

(If) Second Conditional "إذا/لو" الحالة الشرطية الثانية

Usage الاستخدام

1) We use it to talk about a situation that is imaginary or unlikely to happen.

نستخدم الحالة الشرطية الثانية للتحدث عن موقف خيالي أو من المحتمل عدم حدوثه.

If + past simple , subject + would / could + inf.

e.g. If I went in a time machine, I'd go to Ancient Egypt.

Subject + would / could + inf. + if + past simple

e.g. I would go to the future if I went on a time machine.

Question السؤال

If + past simple , would + subject + inf. ..?

e.g. If you had a lot money, would you buy a phone?

Would + subject + inf. + if + past simple ..?

e.g. Would you buy a phone if you had a lot of money?

as + adjective + as

- We use as + adjective + as to compare. The affirmative form means that the two things we are comparing the same in some way.

نستخدم (as + adjective + as) عند المقارنة. ويفيد هذا التركيب في حالة الاثبات التشابه والتماثل في أمر ما بين شيئين.

e.g. Ancient Egyptian toothpaste was almost as good as modern toothpaste!

بمعنى أن معجون الأسنان في مصر القديمة كان جيدًا تقريبًا مثل معجون الأسنان الحديث.

not as + adjective + as

- The negative form means that the two things are different.

أما في صيغة النفي فمعناه أن الشيئين مختلفان.

e.g. Traveling wasn't as easy as it is today.

لم يكن السفر سهلًا مثل اليوم.

بمعنى أن السفر كان صعبًا، لكنه الآن أسهل.

My name is Waleed Bashir and I'm a sports journalist. I love my job because I love sport! Every morning, I go to the newspaper office and I have meetings with my editor and other journalists. Then we decide which games I need to watch. If it's a football game, I arrive about three hours before the game starts. Journalists from television, radio, and newspapers sit together in a place that's called the press box. We all chat while we get ready. During the game I make a lot of notes. At the end of the game, I watch the interviews with the club managers and players, and I make more notes. I go back to the press box and I start writing my story. I include what the players say, details of the game, and my opinion of the game. I finish the article in the press box and send it to my newspaper office to print. All the articles are sent from the press box to save time.

A. Choose the correct answer from a, b, c or d.

4. Why does Waleed love his job? ....

1- A school sports day

Our school sports day was last Thursday, 13 June . It was awesome! Mr Kamal's class decorated the sports area - it looked great! The older children in school planned all the races . Many girls and boys took part, and there were many different things to see. Lots of people watched the exciting football, volleyball, and basketball games. The races, such as the 100-meter running, long jump, and high jump were popular, too.

2-The life of a journalist

I'm an international journalist, and I live in Egypt, I work for an English newspaper. I really love the English language, so I decided to focus on it at school. After that, I studied journalism at university. I think a journalist needs to be good at two things, Firstly, they need to communicate well to get a good story . Secondly, they have to write well and quickly, using correct spelling and grammar.
I love my job . It's fun, and every day is different because we don't know what news will come in .

3-Animal News

Cheetahs, the fastest animals in the world, have returned to India. They lived in India but then slowly disappeared . However, much later, eight of them were brought to a big park in India , The Indian people are very pleased to have these animals back in their country. The cheetahs now live in a safe area, where they are fed every day. They aren't watched all the time, but they are tracked so they don't get lost, Some people are a little worried . This is because when the cheetahs move around more, they will meet other big cats, for example, leopards.

5-Read the text and answer the questions.

(1)

I'm Nermeen. I love learning about inventions that help the planet. Edible cutlery is a great and useful invention. Having takeaway food with friends and family is great. However, plastic knives, forks, and spoons are bad for the planet. We usually use plastic cutlery once, then throw it away. Plastic doesn't decompose, so it stays in the ground for a long time. Some plastic can then get into the ocean. Lots of people want to find a better idea, and cutlery that you can eat is becoming popular. This can be made with special rice, or flour, and some edible cutlery comes in different flavors, too!

A. Choose the correct answer from a, b, c or d.

1. The general idea of the text is ....
a. Filter straws b. Edible cutlery c. Bacteria d. Diseases

2. The underlined word "decompose" in the text means to "......... small parts".
a. break into b. find out c. put away d. look out

B. Answer the following questions.

3. Why do you think plastic is bad for the planet?..........................
4. What can we use to make edible cutlery?...................................

(2)

We use plastic in our everyday lives. Plastic can get into the ocean and create lots of problems. It can have a very bad effect on sea life. Some animals eat plastic and become sick. Some animals get trapped in the plastic and are hurt. Plastic in our water is also bad for the environment. If there wasn't so much plastic pollution, the seas and beaches would be safer for the sea animals and for us, too. The Ocean Net is a special invention that catches trash in the sea. It is a great solution to the problem of plastic in the oceans. It helps sea life. It stops plastic from getting into the sea so that animals, fish, and sea birds are not hurt.

A- Choose the correct answer from a, b, c, or d:

1. The main idea of the text is about " The dangers of........
a. metal b. wood c. plastic d. trees

2. The underlined word "trash" has the same meaning as ....
a.net b. bottle c. loop d. garbage

B Answer the following questions:

3. What is the Ocean Net?...
4. What would happen if there wasn't plastic pollution in the seas?
....

(3)

The wildlife photographers used robot cameras that look like animals. The robot camera is a great invention. It sounds like a hippo and can swim under water. The robot camera can film a family of hippos. The camera doesn't scare hippos or other animals. It's covered in waterproof material. It sounds liked hippos because it makes noises like them. This camera can show scientists how healthy the wildlife is.

A- Choose the correct answer from a, b, c, or d:

1. The text is about..................

a. Jobs b. Robot cameras c. Video games d. Adventures

2. The underlined word "scare" means to.................

a.push b. frighten c. film d. cover

B- Answer the following questions:

3. How can robot cameras help scientists?................................

4. Why doesn't the robot camera scare hippos?.......................

" Ancient Egyptians' inventions "

The Ancient Egyptians were one of the first groups of people to use a metal plow. A plow was used to dig and turn the soil. Later, they used animals to pull this plow and this made plowing the land easier. Ancient Egyptians wanted to keep clean. Clean teeth were important to them, so they invented a type of toothpaste. The Ancient Egyptians mixed salt, flowers, mint, and pepper into a paste. Ancient Egyptian toothpaste was as good as modern toothpaste!

" Plastic pollution problem "

We use plastic in our everyday lives: at home, at school, and at work. Plastic can get into the ocean and create lots of problems . It can have a very bad effect on sea life: turtles, fish, and jellyfish, for example. Some animals think the plastic is food, and so they eat it and become sick, Some animals get trapped in the plastic and are hurt. Plastic in our water is also bad for the environment. A lot of plastic pollution is washed onto beaches, which looks horrible. If there wasn't so much plastic pollution, the seas and beaches would be safer for the sea animals and for us, too.

1 - Working in a team

When you take part in a new sport, for example, you can easily make new friends. You might meet new people that you haven't met before. Playing together as a team in a game or a competition is a great experience, and you might make friends for life.

A team works best when everybody takes turns to speak, and takes time to listen to each other. You can learn a lot when you take an interest in other people's ideas . This might even mean that you change your opinion.

2-A new project

Fares is my best friend . Fares had to do a project on the history of flight. He had to make a poster but he couldn't get it right. His friend told him to ask for help, His teacher told him to try again and to make notes on what he read . His mom told him to try his best. His dad told him to stop and think . So Fares asked, he read, and he tried . He planned his ideas and his poster was the best!

Farmer Sameh had a very happy life. He lived on a farm with his wife, Amina, and his children, Monir and Menna. They didn't have a lot of land, but they had enough to grow food to eat and a little to sell at the market. Sameh kept sheep and chickens, and the children helped him look after them. Amina grew fava beans so she could make delicious ful mudamas. The family had an old barn where they kept the sheep. It was very important on cold and rainy days, or when the female sheep were having babies. Sameh's friends, Hazem and Fareed, were worried about the barn. They thought it was too old and not safe. They advised Sameh to build a new one from bricks.

healthy - pain - medicine - useful - health

The Ancient Egyptians were great people. They invented many useful things. Many of their ideas that are still important in modern medicine come from these times. Ancient Egyptians were as interested in health and medicine as we are. They understood how the human body worked, and used herbs to stop pain and diseases.

animals - park - birds - safe - disappeared.

Cheetahs, the fastest animals in the world, have returned to India. They lived in India until the 1950s, but then slowly disappeared. However, much later, eight of them were brought to a big park in India - Kuno National Park. The Indian people are very pleased to have these animals back in their country. The cheetahs now live in a safe area, where they are fed every day. They aren't watched all the time, but they are tracked so they don't get lost.

Ibrahim's School Newspaper

School concert a success!

Our school concert was on Saturday. It was amazing! Miss Leila's class put150 chairs in the school hall and tickets were sold on the school website. Mr Amir's class decorated the hall with flowers. Everyone was very excited. The students played lots of different musical instruments. The choir had many students from different years. The school director gave a presentation. There was a break in the middle of the concert, and some students served cold drinks and cakes.

It was an awesome evening, and everyone went home feeling happy.

Write a paragraph of SEVENTY (70) words about a school concert using the following guiding elements.

" The Ancient Egyptian inventions "

Ideas to help you : Papyrus - ink.

In Ancient Egypt, it was important to write down decisions, record events, and tell stories. For this, people needed paper and ink. Papyrus was a type of thick paper made from reeds. It wasn't as smooth as the paper we use today. It changed how people communicated. The Ancient Egyptians burned wood or oil, and mixed it with water to make ink. Then they used the ink to write on papyrus.

" A solution to a plastic problem "

Ideas to help you: effect - Sea life.

We use plastic in our everyday lives. Plastic can get into the ocean and create lots of problems. It can have a very bad effect on sea life: turtles and fish. Animals sometimes eat plastic or get trapped in it. It also causes pollution on beaches. The Ocean Net is good because it stops plastic from getting into the sea.

Dear Amr,

How are you? Have you read about the cheetahs' return? The cheetahs are back! Cheetahs lived in India until the 1950s, but then slowly disappeared. However, eight of them were brought to Kuno National Park. The cheetahs now live in a safe area, and they are fed every day. Also, they are tracked so that they don't get lost. Some people are worried as they will meet leopards and other big cats, but it's important that cheetahs are protected now.
